

UT244

Conversion Kit[®] for Sandvik Toro TH663i Underground Trucks

Ask to see Immersive Technologies' extensive catalog of quantified business improvements, solving problems in areas such as safety, productivity, reactive maintenance and the availability of skilled equipment operators.

REAL RESULTS
MEAN IMPROVEMENTS*

SAFETY

- ↑ 56% Correct Emergency Response
- ↓ 54% Traffic Incidents

UNSCHEDULED MAINTENANCE

- ↓ 65% Brake Abuse
- ↓ 63% Engine Overspeed

COST SAVINGS

- ↓ 51% Training Hours on Equipment
- ↑ 24% Tire Life

PRODUCTIVITY

- ↓ 16% Spot Time
- ↑ 10% Payloads

* All results are average in-field improvements, documented and verified by external parties.

Immersive Technologies' UT244 Conversion Kit provides the ultimate in training realism for mines focused on increasing operator safety, improving productivity and reducing levels of unscheduled maintenance. The Conversion Kit includes a complete replica cab of the Sandvik Toro TH663i Underground Trucks, with fully functional controls and instrumentation.

With mining equipment becoming increasingly technically sophisticated, the level of information, experience and organizational competencies required to accurately simulate these machines also increases. Through Immersive Technologies' industry experience, you can be assured your training solution will be the only accurate and true representation of the real machine available.

Expect Results

UT244 Conversion Kit® for Sandvik Toro TH663i Underground Trucks

Featuring updated OEM controls, such as the Operator Speed Assist, this Conversion Kit aligns perfectly with the latest Sandvik Toro Underground Truck range.

Ensure your operators are familiarized with the latest Sandvik Toro transmission system, allowing them to adjust behaviors and techniques to extract the full benefit of their updated fleet.

Closely replicated pedal controls are complemented with realistically simulated machine dynamics, ensuring a more immersive experience and greater impact on operator muscle memory.

Conversion Kit Features

CONVERSION KIT® COMPATIBLE WITH SIMULATOR SERIES

PRO4 IM360 LX6

Innovative Simulator Training Software

Immersive Technologies' SimControl software includes a range of specific Sandvik Toro TH663i operator errors for recording and measuring incorrect operator behaviors. In addition, SimControl allows a trainer to initiate machine faults or incidents in order to train and assess operators in responding appropriately.

Training opportunities include:

- Hazard Avoidance
- Operator Productivity
- Fuel Efficiency
- Tire Preservation
- Site Safety Procedures
- Minimizing Unscheduled Maintenance

Industry Leading Mining Simulators

As the world's largest supplier of mining equipment simulators, Immersive Technologies has deployed solutions in 46 countries and works closely with mining operations and equipment manufacturers to solve real industry problems in areas of safety, productivity, reactive maintenance and the availability of skilled personnel. Immersive Technologies is the only equipment simulator supplier with a consistent and proven track record of delivering significant and measurable in-field improvements.

This experience, together with ongoing feedback from our mining customer base and Original Equipment Manufacturer alliance partners, has provided Immersive Technologies with the knowledge necessary to develop the industry standard in Advanced Equipment Simulators. Our solutions incorporate the industry's most advanced training functionality ensuring your operators are safer and your site is more profitable.
